Fort Worth, TX 76179-3256

30th ANNUAL TECHNICAL RESCUE COMPETITION 2007

**October 5-6
Garner State Park
Concan, Texas**

Is your team up to the challenge?

You will be judged on your emergency medical and technical rescue skills.

- Teams may compete for awards in one or more of the three categories:

BASIC – steep slope/talus rescue and evacuation.

ADVANCED – cliff face rescue with medical care provided on the face.

VERTICAL – rescue and evacuation requiring patient treatment and raising techniques in tight places.

- Medical skill levels:

BASIC – First Aid, ECA or EMT

ADVANCED – EMT-I, Paramedic or higher.

- You may observe and photograph teams in action as they apply their technical rope skills and provide medical treatment in a variety of scenarios.
- Each team has a chance to win the coveted “Traveling Trophy” or other awards.

Benefits for your team include the challenge of incorporating medical and technical rope rescue skills under realistic conditions and the opportunity to see new rescue tools and techniques employed by other teams.

Teams, families and friends are encouraged to socialize with the other teams and competition staff after the awards presentations on Saturday evening.

Enjoy the wilderness setting of Garner State Park with your family and the fellowship of the teams. Splash in the cold, crystal waters of the Rio Frio River, picnic under the cypress, fish, hike and canoe. State Park campsites, shelters and cabins are available.

Texas Rescue Competition Inc.

TRC, Inc. is a 501c3 Non-profit corporation organized in 1995 to further the education, training and skill development of search and rescue personnel through a variety of training scenarios.
